

# Your bottle baling solution.

Specially designed to bale all types of hollow plastic products such as PET bottles, disposable plastic tableware, HDPE/PP jars, jerrycans and drums, etc. The extended rams help to ensure that even the bottom products of the bale can be compacted.

Choose from our various models or contact us for a customized model to meet your baling demands today.

## BOTTLE BALERS

**SERIES 1** // SVBB2-200 . SVBB2-300 . SVBB2-400 . SVBB2-500 . SVBB2-700

**CUSTOMIZED** // MADE-TO-ORDER MODELS ARE AVAILABLE

### FEATURES

**Ram Guides**  
maximize the efficiency of press force and ensure platen be horizontal during compaction

**Heavy Duty Plate**  
incorporates with special wire-tie guides for quick bale tying with wires or PET belts

**Automatic Chain Bale Ejector**  
for efficiently removing bales from the compressing chamber

PENDING

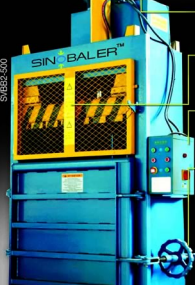

APPROVED

COMPLIANT

SVBB2-500

- 
- 1 **Hydraulic Cylinder**  
two ram cylinder structure is available for option
  - 2 **Material Feeding Door**  
the machine can operate only when the door is completely locked
  - 3 **Electric Cabinet**  
includes emergency stop button, for easy and safe operation
  - 4 **Decompression Turnbuckle Door**  
is slowly released for safety protection
  - 5 **Automatic Material Feeding System**  
is available for option for promoting working efficiency and cutting the labor costs
  - 6 **CE Certified**  
guarantees trouble-free operation

## Specifications

MODEL	SVBB2-300	SVBB2-400	SVBB2-500	SVBB2-700
Compressing Force	30Tons	40Tons	50Tons	70Tons
Compression Time	28s	28s	28s	30s
Feed Opening Size (L*H)	800*400mm	1000*500mm	1100*500mm	1500*500mm
Compressing Chamber Size	800*800*1400mm	1000*800*1500mm	1100*700*1500mm	1500*760*1700mm
Bale Size	800*800*(200-800)mm	1000*800*(300-800)mm	1100*700*(300-1000)mm	1500*760*(400-1000)mm
Bale Weight (approx./PET bottles)	50-120kg	100-200kg	150-300kg	200-500kg
Throughput (approx.)	3-6 bales/hr	3-6 bales/hr	3-6 bales/hr	3-5 bales/hr
Voltage (customizable)	380V, 3Phase, 50Hz	380V, 3Phase, 50Hz	380V, 3Phase, 50Hz	380V, 3Phase, 50Hz
Power	5.5kw	75kw	75kw	11kw
Machine Weight (approx.)	1250kg	1650kg	1900kg	3000kg
Overall Dimension	1280*950*3350mm	1480*800*3500mm	1580*950*3650mm	1950*1550*4200mm

\* you can choose to put the hydraulic system on the top of the baler or on the ground
