

Your multi-purpose baling solution

An ideal option for sample rooms, retail shops, warehouses, grocers, vessels, industrial factories, offices, and even living houses. With the special design of low overall height, it is a perfect choice especially when the height of your facility is limited. It can process a variety of waste, such as **waste paper, carton boxes, waste film, municipal waste, etc.**

CROSS CYLINDER BALER

SERIES 1 // SVB2-C-60 . SVB2-C-120

CUSTOMIZED // MADE-TO-ORDER MODELS ARE AVAILABLE

FEATURES

Cross Cylinder Design

provides longer stroke and lower overall height

Automatic Bale Ejector

efficiently removes bales from the compressing chamber

Unique Belting Design

simplifies and accelerates the baling process

Specifications

MODEL	SVB2-C-60	SVB2-C-120
Compressing force	6Tons	12Tons
Feed opening size (L * H)	700*450mm	800*450mm
Bale size	800*600*500mm	900*700*600mm
Compressing chamber size(L*W*H)	800*600*1100mm	900*700*1200mm
Bale weight (approx.)	30-70kg	40-100kg
Voltage (customizable)	380V, 3 phase, 50Hz	380V, 3 phase, 50Hz
Power	2.2kw	3kw
Machine weight (approx.)	550kg	700kg
Overall dimension	950*850*2000mm	1100*950*2100mm

* Unit bale weight depends on the material used and bale size you adjust
