

# Your wood shaving baling and bagging solution

Particularly designed for baling and bagging wood shavings, sawdust, chopped hay, chaff, mineral cotton fiber and other similar materials. It is an optimal choice for pet food factories, animal bedding material factories, fiber processing workshops as well as farms to efficiently compress the loose material to dense bagged bales.

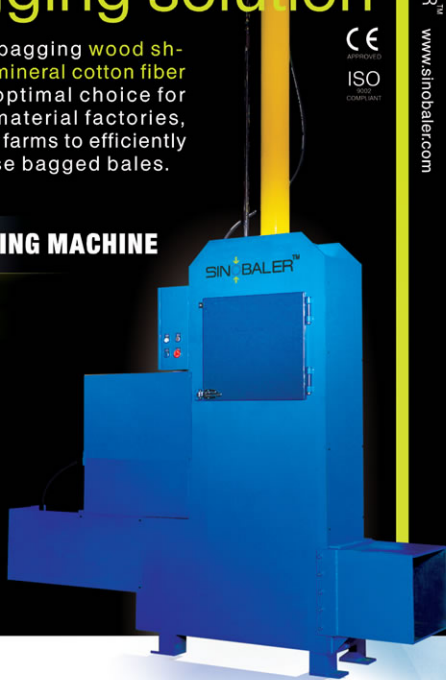

## WOOD-SHAVING BALING & BAGGING MACHINE

**SERIES 1** // SVB2-WS-300

**CUSTOMIZED** // MADE-TO-ORDER MODELS ARE AVAILABLE

### FEATURES

Automatic Baling and Bagging System  
greatly saves your time and labor cost

## Specifications

MODEL	SVB2-WS-300
Compressing force	30Tons
Feed opening size (L * H)	565*500mm
Bale size	565*425*380mm
Compressing chamber size	565*425*1636mm
Bale weight (approx.)	25-40kg
Throughput	25-30bags/h
Voltage (customizable)	380V, 3 phase, 50Hz
Power	7.5kw
Machine weight (approx.)	1450kg
Overall dimension	2300*500*3600mm

\* Unit bale weight depends on the material used and bale size you adjust
